

Microsoft Cyber Security Architecture Free Two-Hour Workshop

An exclusive opportunity to dive deep into the realm of Microsoft Cyber Security Architecture with our complimentary two-hour workshop.

This session is meticulously crafted for customers who have procured Microsoft 365 Security licences or are contemplating a transition to Microsoft Defender XDR. The workshop will be conducted by Jon Jarvis, a distinguished Microsoft Most Valued Professional (MVP) in Security, ensuring you gain top-tier insights and practical knowledge.

What to expect in the workshop

During this intensive workshop, you will be guided through the comprehensive aspects of the Microsoft Cyber Security Architecture, designed specifically to enhance your security posture and maximise your investment in Microsoft technologies. Here's a detailed breakdown of what you can expect:

- In-depth exploration of Microsoft Cyber Security features
- Review of the latest security updates and enhancements
- Real-world case studies demonstrating successful implementation
- Tools and resources to assist with the migration process
- Actionable next steps to enhance your cyber security architecture

Why should you take the workshop?

This workshop is an invaluable opportunity for your organisation to strengthen its cyber security framework. Here are just a few reasons why you shouldn't miss this session:

- Learn directly from Jon Jarvis, a Microsoft MVP in Security, who brings unparalleled expertise and insights.
- Gain a thorough understanding of Microsoft 365 Security and Microsoft Defender XDR, empowering you to make informed decisions.
- Discover best practices and proven strategies to enhance your cyber security posture, tailored to your specific needs.
- Stay ahead of the curve by understanding the latest trends and developments in the cyber security landscape.

Join us for this transformative two-hour workshop and unlock the full potential of your Microsoft cyber security solutions. Reserve your spot today and take the first step towards a more secure and resilient digital infrastructure. We look forward to guiding you through this journey.
